## AMINOglobin®

Builds Haemoglobin FAST!

### AMINOglobin

#### The True Haematinic Syrup

##### Description

**Aminoglobin**, a hematinic, is a rational combination of iron, folic acid, vitamin B6 & B12 with zinc. The iron in **Aminoglobin** is in the form of Ferrous Glycine Sulphate, a stable complex of iron and glycine (amino acid). Hence it does not precipitate formation of free radicals responsible for causing gastric irritation; this makes **Aminoglobin** a G.I. friendly formulation.

##### Composition

Each 10 ml contains

Ferrous Glycine Sulphate	180 mg
equivalent to Elemental Iron	32 mg
Pyridoxine	
Hydrochloride IP	0.75 mg
Cyanocobalamine IP	7.5 mcg
Folic Acid IP	0.75 mg
Zinc Sulphate IP	20 mg

in a flavoured syrupy base

##### Indications

Iron Deficiency Anaemia in Hookworm Disease, Haemorrhoids, Infective Hepatitis, Malaria, Post Surgical Conditions. Nutritional Anaemia in Elderly Patients, Tuberculosis, Malabsorption Syndromes.

##### Dosage

10 ml (2 teaspoonfuls) twice daily
